Sir:

In response to the Office Action mailed August 26, 2002, please amend the above-identified application as follows:

IN THE CLAIMS:

Claims 1-37, 41 and 43 were previously canceled. Claims 38, 40 and 42 are amended. A version of the claims with markings to show changes made is provided in Appendix A. A clean copy of all pending claims is provided in Appendix B.

38. (Twice amended) A device for insertion into a body lumen useful for dissolution of obstructive material, the device comprising:  
a source of low-frequency mechanical motion; and  
an elongate vibratory motion catheter having a proximal portion, a distal portion, and a longitudinal axis therebetween, wherein said proximal portion is matingly engageable with the source of mechanical motion,
